October 2014 Features

Calendar

Individual users now have more choice about how their calendars are formatted both in the Calendar tool and when making date selections. They can alter the first day of the week that starts the calendar view in month and week views. Users can also now choose the Hijri Islamic lunar calendar. There is now a course list filter in the calendar.

To learn more, see [Administrator: Calendar](#) | [Instructor: Calendar](#) | [Student: Calendar](#)

Content Editor

The Content Editor spell check option is now *ON* by default.

To learn more, see [Administrator: Content Editor](#) | [Instructor: Content Editor](#)

Language packs

Translation change requests have been implemented to improve the quality and usability of the language packs for Japanese, Simplified Chinese, Swedish, Spanish, Turkish, and Korean. Czech and Polish language packs have been added.

To learn more, see [Administrator: Language Packs](#) | [Instructor: Languages Other Than English](#) | [Student: Languages Other Than English](#)

Outcomes Assessment

Users can now access report options to create a printable view to save the visualized report as a PDF or XLS. There are also additional data fields available to provide further insight needed for in-depth data analysis for quantitative and qualitative assessment.

To learn more, see [Administrator: Outcomes Assessment](#) (available in English only)

Video Everywhere

Blackboard Learn has integrated with OAuth 2.0. With this update, users are able to seamlessly use several video features within Learn without authentication issues.
